# MCT EGS

MCT Email Gateway Solution

MCT Email Gateway is a full-featured mail server solution that simplifies the process of setting up and managing email services for businesses and organizations. It offers a comprehensive email infrastructure, including support for popular email protocols such as IMAP, SMTP, and POP3, as well as webmail interfaces. It has multiple mail transfer agents, spam filters and virus filtering tools. Additionally MCT Email Gateway supports multi-domain and multi-language setups, making it suitable for both small businesses and large enterprises seeking a reliable and customizable email server solution.
